

OPERATIONS BULLETIN

Hello All,

As Australia continues to effectively manage the spread of COVID-19, it seems that some of us may be able to return to normal flying operations.

Over the past week we have seen a number of states beginning to ease physical distancing requirements. This is positive news particularly for members living in Queensland, South Australia, Western Australia and the Northern Territory where in some regions restrictions on recreational activities have been eased (albeit with some conditions still in place).

It is important that all members continue to review the updated guidelines for their respective State or Territory prior to undertaking private, recreational, or flight training activities. Members should also carefully review and follow the advice or regulations which have been published in relation to physical distancing, travel restrictions, or any prohibited or restricted activity.

The links below provide general information regarding COVID-19 advice and are taken directly from the government [HealthDirect website](#).

- [Victoria](#)
- [Queensland](#)
- [South Australia](#)

- [Western Australia](#)
- [Northern Territory](#)
- [Tasmania](#)
- [Australian Capital Territory](#)

Safe Work Australia also has information about [physical distancing in the workplace](#).

Until next time, stay safe.

Brett Coupland - SAFA Ops Team
