Hi Brett,

FYI, the decision was rescinded, see notice below. Thanks, sorry for all the mucking around! Cheers, John L.

### 'Sport Aviation – Hang Gliding and Paragliding in Cairns Region'

At the request by a number of Members, The Management Committee of the Cairns Hang Gliding Club wish to acknowledge that as a result of careful review of the Club's Constitution that the recent decision at the General Meeting of the Cairns Hang Gliding Club on Wed 1-4-2020 to "suspend flying operations in the Cairns Region" be rescinded due to the lack of a quorum. However, due to the COVID-19 Pandemic, the Cairns Hang Gliding Club Management Committee do encourage all Members to seriously consider any flying activity in the Cairns Region at its listed Sites during this time. That if any member chooses to engage in flying activity, that they comply with the latest Queensland Government 'Home Confinement Directive' and follow recommendations from the Queensland Health Department regarding social distancing.

Thanks John.

I have added the information and document link to the SAFA Blog.
